Dear Mr. Andrews

On October 31, 2011 **Carletha Cole B/F, DOB 11/19/62** was administered a polygraph examination for the purpose of establishing validity of **MS. Coles'** contention that she (Cole) walked into the Lt. Governor's Jennifer Carroll's office and observed the Lt. Governor sitting at her desk with her foot up on the cadenza and her skirt hiked up. Beatrice Ramos was kneeling in front of Carroll, poised as if she (Ramos) was about to or had performed oral sex on the Lt. Governor.

Examiner Robinson advised Ms. Cole about the polygraph process in general and what would transpire during and after the exam. Ms. Cole was administered an "ACQUAINTANCE TEST" in order to familiarize the subject with the polygraph protocol and establish a baseline for comparison with the relevant questions.

Note: Ms. Cole's charts were somewhat difficult to read because of exaggerated breathing and diminished GSR but in my opinion, the charts were indicative of a Non-Deceptive individual.

The Relevant Questions utilized on the Examination were as follows:

A) Did you ever observe Lt. Governor Jennifer Carroll and Beatrice Ramos in a sexually compromising position in the Capitol?

Answer: YES

B) Are you telling me the truth about seeing the Lt. Governor and Ramos engaged in a sexually compromising position?

Answer: YES

CONCLUSION:

After the examination, Examiner Robinson, utilizing both global, hand scoring and computer software (AXCITON) analysis is of the opinion that Carletha Cole is telling the truth about what she observed in the Lt. Governor's office. Her charts, in my opinion, are indicative of a non-deceptive examinee (truthful). Ms. Cole passed her polygraph.
